<u>Declaration of Consolidated Financial Statements of Affiliated Enterprises</u>

For the year ended 31st December 2014, pursuant to "Criteria Governing Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises," the company that is required to be included in the consolidated financial statements of affiliates, is the same as the company required to be included in the consolidated financial statements of parent and subsidiary companies under Statements of Financial Accounting Standards No.7. And if relevant information that should be disclosed in the consolidated financial statements of affiliates has all been disclosed in the consolidated financial statements of parent and subsidiary companies, it shall not be required to prepare separate consolidated financial statements of affiliates.

Hereby declare,
GIGA-BYTE TECHNOLOGY CO., LTD.
Dandy Yeh
16th March 2015

REPORT OF INDEPENDENT ACCOUNTANTS TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of Giga-Byte Technology Co., Ltd. and subsidiaries

We have audited the accompanying consolidated balance sheets of Giga-Byte Technology Co., Ltd. and its subsidiaries as of 31st December 2014 and 2013, and the related consolidated statements of comprehensive income, of changes in shareholders' equity and of cash flows for the years then These financial statements are the responsibility of the Group's management. ended. Our responsibility is to express an opinion on these financial statements based on our audits. The financial statements of certain investee companies accounted for under the equity method as of and for the years ended 31st December 2014 and 2013 were audited by other auditors, whose reports thereon were furnished to us. Long-term equity investment balance in these investee companies amounted to \$81,057 thousand and \$306,284 thousand as of 31st December 2014 and 2013, respectively, and the related investment gain (loss) recognized amounted to \$282 thousand and (\$13,701) thousand for the years then ended. Our opinion, insofar as it relates to the amounts included in the financial statements and information disclosed in Note 13 relating to these long-term equity investments, is based solely on the reports of the other auditors.

We conducted our audits in accordance with the "Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants" and generally accepted auditing standards in the Republic of China. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of the other auditors, the consolidated financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of Giga-Byte Technology Co., Ltd. and its subsidiaries as of 31st December 2014 and 2013, and their financial performance and cash flows for the years then ended in conformity with the "Rules Governing the Preparation of Financial Statements by Securities Issuers" and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission.

We have also audited the unconsolidated financial statements of Giga-Byte Technology Co., Ltd. (not presented herein) as of and for the years ended 31st December 2014 and 2013, and have expressed a modified unqualified opinion on such financial statements.

PricewaterhouseCoopers, Taiwan 16th March 2015

The accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying consolidated financial statements and report of independent accountants are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice. As the financial statements are the responsibility of the management, PricewaterhouseCoopers cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

GIGA-BYTE TECHNOLOGY CO., LTD. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS 31ST DECEMBER 2014 AND 2013

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. HISTORY AND ORGANIZATION

Giga-Byte Technology Co., Ltd. (the "Company") was incorporated as company limited by shares under the provisions of the Company Act of the Republic of China (R.O.C.). The address of the Company's registered office is No.6, Baoqiang Rd., Xindian Dist., New Taipei City, Taiwan (R.O.C.). The Company and its subsidiaries (collectively referred herein as the "Group") are engaged in the manufacture, processing and trading of computer peripheral and component parts.

2. THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORIZATION

These consolidated financial statements were authorized for issuance by the Board of Directors on 16th March 2015.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRSs") as endorsed by the Financial Supervisory Commission ("FSC")

None.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

According to Financial-Supervisory-Securities-Auditing No. 1030010325 issued on 3rd April 2014, commencing 2015, companies with shares listed on the TWSE or traded on the Taiwan GreTai Securities Market or Emerging Stock Market shall adopt the 2013 version of IFRS (not including IFRS 9, 'Financial instruments') as endorsed by the FSC and the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" effective 1st January 2015 (collectively referred herein as the "2013 version of IFRSs") in preparing the consolidated financial statements. The related new standards, interpretations and amendments are listed below:

New Standards, Interpretations and Amendments	Effective Date by International Accounting Standards Board
Limited exemption from comparative IFRS 7 disclosures for first-time adopters (amendments to IFRS 1)	1st July 2010
Severe hyperinflation and removal of fixed dates for first-time adopters (amendments to IFRS 1)	1st July 2011
Government loans (amendments to IFRS 1)	1st January 2013
Disclosures – Transfers of financial assets (amendments to IFRS 7)	1st July 2011
Disclosures — Offsetting financial assets and financial liabilities (amendments to IFRS 7)	1st January 2013

	Effective Date by International
New Standards, Interpretations and Amendments	Accounting Standards Board
IFRS 10, 'Consolidated financial statements'	1st January 2013
	(Investment entities: 1st January 2014)
IFRS 11, 'Joint arrangements'	1st January 2013
IFRS 12, 'Disclosure of interests in other entities'	1st January 2013
IFRS 13, 'Fair value measurement'	1st January 2013
Presentation of items of other comprehensive income (amendments to IAS 1)	1st July 2012
Deferred tax: recovery of underlying assets (amendments to IAS 12)	1st January 2012
IAS 19 (revised), 'Employee benefits'	1st January 2013
IAS 27, 'Separate financial statements' (as amended in 2011)	1st January 2013
IAS 28, 'Investments in associates and joint ventures' (as amended in 2011)	1st January 2013
Offsetting financial assets and financial liabilities (amendments to IAS 32)	1st January 2014
IFRIC 20, 'Stripping costs in the production phase of a surface mine'	1st January 2013
Improvements to IFRSs 2010	1st January 2011
Improvements to IFRSs 2009 – 2011	1st January 2013

Based on the Group's assessment, the adoption of the 2013 version of IFRSs has no significant impact on the consolidated financial statements of the Group, except for the following:

A. IAS 19 (revised), 'Employee benefits'

The revised standard eliminates the corridor approach and requires actuarial gains and losses to be recognised immediately in other comprehensive income. Past service cost will be recognised immediately in the period incurred. Net interest expense or income, calculated by applying the discount rate to the net defined benefit asset or liability, replace the finance charge and expected return on plan assets. The return of plan assets, excluding net interest expenses, is recognised in other comprehensive income. An entity is required to recognise termination benefits at the earlier of when the entity can no longer withdraw an offer of those benefits and when it recognises any related restructuring costs. Additional disclosures are required to present how defined benefit plans may affect the amount, timing and uncertainty of the entity's future cash flows. Net interest income, calculated by applying the discount rate to the net defined benefit liability by the Group,

replaces the finance charge and expected return on plan assets. Therefore, operating expenses would be decreased by \$623 and other comprehensive income would be increased by \$623 for the year ended 31st December 2014.

B. IAS 1, 'Presentation of financial statements'

The amendment requires entities to separate items presented in OCI classified by nature into two groups on the basis of whether they are potentially reclassifiable to profit or loss subsequently when specific conditions are met. If the items are presented before tax then the tax related to each of the two groups of OCI items (those that might be reclassified and those that will not be reclassified) must be shown separately. Accordingly, the Group will adjust its presentation of the statement of comprehensive income.

C. IFRS 12, 'Disclosure of interests in other entities'

The standard integrates the disclosure requirements for subsidiaries, joint arrangements, associates and unconsolidated structured entities. Also, the Group will disclose additional information about its interests in consolidated entities and unconsolidated entities accordingly.

D. IFRS 13, 'Fair value measurement'

The standard defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The standard sets out a framework for measuring fair value using the assumptions that market participants would use when pricing the asset or liability; for non-financial assets, fair value is determined based on the highest and best use of the asset. Also, the standard requires disclosures about fair value measurements. Based on the Group's assessment, the adoption of the standard has no significant impact on its consolidated financial statements, and the Group will disclose additional information about fair value measurements accordingly.

E. IAS 28, 'Investments in associates and joint ventures' (as amended in 2011)

As consequential amendments resulting from the issuance of IFRS 11, 'Joint arrangements', IAS 28 (revised) sets out the requirements for the application of the equity method when accounting for investments in joint ventures. A portion of an investment in an associate or a joint venture that meets the criteria to be classified as held for sale shall be measured at fair value less costs to sell. Any retained portion of an investment in an associate or a joint venture that has not been classified as held for sale shall be accounted for using the equity method until disposal of the portion that is classified as held for sale takes place. When an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate, the entity continues to apply the equity method and does not remeasure the retained interest.

Except for Note 3(2)A, for the above items, the Group is assessing their impact on the consolidated financial statements and will disclose the affected amounts accordingly.

(3)IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the 2013 version of IFRSs as endorsed by the FSC:

	Effective Date by International
New Standards, Interpretations and Amendments	Accounting Standards Board
IFRS 9, 'Financial instruments'	1st January 2018
Sale or contribution of assets between an investor and its associate or joint venture (amendments to IFRS 10 and IAS 28)	1st January 2016
Investment entities: applying the consolidation exception (amendments to IFRS 10, IFRS 12 and IAS 28)	1st January 2016
Accounting for acquisition of interests in joint operations (amendments to IFRS 11)	1st January 2016
IFRS 14, 'Regulatory deferral accounts'	1st January 2016
IFRS 15, 'Revenue from contracts with customers'	1st January 2017
Disclosure initiative (amendments to IAS 1)	1st January 2016
Clarification of acceptable methods of depreciation and amortisation (amendments to IAS 16 and IAS 38)	1st January 2016
Agriculture: bearer plants (amendments to IAS 16 and IAS 41)	1st January 2016
Defined benefit plans: employee contributions (amendments to IAS 19R)	1st July 2014
Equity method in separate financial statements (amendments to IAS 27)	1st January 2016
Recoverable amount disclosures for non-financial assets (amendments to IAS 36)	1st January 2014
Novation of derivatives and continuation of hedge accounting (amendments to IAS 39)	1st January 2014
IFRIC 21, 'Levies'	1st January 2014
Improvements to IFRSs 2010-2012	1st July 2014
Improvements to IFRSs 2011-2013	1st July 2014
Improvements to IFRSs 2012-2014	1st January 2016

The Group is assessing the potential impact of the new standards, interpretations and amendments above. The impact on the consolidated financial statements will be disclosed when the assessment is complete.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1)Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the "IFRSs").

(2) Basis of preparation

- A. Except for the following items, these consolidated financial statements have been prepared under the historical cost convention:
 - (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - (b) Available-for-sale financial assets measured at fair value.
 - (c)Defined benefit liabilities recognised based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in compliance with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

(3)Basis of consolidation

- A. Basis for preparation of consolidated financial statements:
 - (a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities over which the Group has the power to govern the financial and operating policies. In general, control is presumed to exist when the parent owns, directly or indirectly through subsidiaries, more than half of the voting power of an entity. The existence and effect of potential voting rights that are currently exercisable or convertible have been considered when assessing whether the Group controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.
 - (b)Inter-company transactions, balances and unrealised gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
 - (c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.
 - (d)Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity.
 - (e) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. Any difference between fair value and carrying amount is recognised in profit or loss. All amounts previously recognised in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of.

B. Subsidiaries included in the consolidated financial statements:

- Note 1: Freedom International Group Ltd. acquired 100% equity interest in Giga Advance (Labuan) Limited from the Company for a cash consideration of NT\$5,648 in August 2014.
- Note 2: It had been liquidated in 2013.
- Note 3: Starting from 2014, Gigabyte Singapore Pte. Ltd. was renamed as Aorus Pte. Ltd.
- Note 4: Chi-Ga Investment Corp. acquired 26.09% equity interest in Gigazone Holding Limited from Giga-Zone International Co., Ltd. for a cash consideration of NT\$23,371 in January 2014.
- Note 5: Ningbo Zhongjia Technology Co., Ltd. acquired 41.03% equity interest in Gigazone International (Shenzhen) from Gigazone Holdings Limited for a cash consideration of NT\$146,370 in August 2014.
- Note 6: The establishment of new investment in 2014.
- Note 7: Ningbo BestYield Tech. Services Co., Ltd. acquired 100% equity interest in Cloud Ride

Limited from Freedom International Group Ltd. for a cash consideration of NT\$100,577 in December 2014.

- C. Subsidiaries not included in the consolidated financial statements: None.
- D. Adjustments for subsidiaries with different balance sheet dates: None.
- E. Nature and extent of the restrictions on fund remittance from subsidiaries to the parent company: None.

(4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan dollars, which is the Company's functional currency and the Group's presentation currency.

A. Foreign currency transactions and balances

- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.
- (b)Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (d)All other foreign exchange gains and losses based on the nature of those transactions are presented in the statement of comprehensive income within 'other gains and losses'.

B. Translation of foreign operations

- (a) The operating results and financial position of all the Company entities and associates that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
 - i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
 - ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
 - iii. All resulting exchange differences are recognised in other comprehensive income.
- (b) When the foreign operation partially disposed of or sold is an associate, exchange differences that were recorded in other comprehensive income are proportionately reclassified to profit or loss as part of the gain or loss on sale. In addition, even when the Group still retains partial interest in the former foreign associate after losing significant influence over the former foreign associate, such transactions should be accounted for as disposal of all interest in these foreign operations.

(c) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, even when the Group still retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operation.

(5) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
 - (a) Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;
 - (b) Assets held mainly for trading purposes;
 - (c) Assets that are expected to be realised within twelve months from the balance sheet date;
 - (d)Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
 - (a) Liabilities that are expected to be paid off within the normal operating cycle;
 - (b)Liabilities arising mainly from trading activities;
 - (c) Liabilities that are to be paid off within twelve months from the balance sheet date;
 - (d)Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(7) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets held for trading. Financial assets are classified in this category of held for trading if acquired principally for the purpose of selling in the short-term. Derivatives are also categorized as financial assets held for trading unless they are designated as hedges.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using settlement date accounting.
- C. Financial assets at fair value through profit or loss are initially recognised at fair value. Related transaction costs are expensed in profit or loss. These financial assets are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial assets are recognised in profit or loss.

(8) Available-for-sale financial assets

- A. Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. On a regular way purchase or sale basis, available-for-sale financial assets are recognised and derecognised using trade date accounting.
- B. Available-for-sale financial assets are initially recognised at fair value plus transaction costs. These financial assets are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial assets are recognised in other comprehensive income.

(9)Held-to-maturity financial assets

- A. Held-to-maturity financial assets are non-derivative financial assets with fixed or determinable payments and fixed maturity date that the Group has the positive intention and ability to hold to maturity other than those that meet the definition of loans and receivables and those that are designated as at fair value through profit or loss or as available-for-sale on initial recognition.
- B. On a regular way purchase or sale basis, held-to-maturity financial assets are recognised and derecognised using settlement date accounting.
- C. Held-to-maturity financial assets are initially recognised at fair value on the trade date plus transaction costs and subsequently measured at amortised cost using the effective interest method, less provision for impairment. Amortisation of a premium or a discount on such assets is recognised in profit or loss.

(10) Loans and receivables

A. Accounts receivable

Accounts receivable are loans and receivables originated by the entity. They are created by the entity by selling goods or providing services to customers in the ordinary course of business. Accounts receivable are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. However, short-term accounts receivable without bearing interest are subsequently measured at initial invoice amount as effect of discounting is immaterial.

B. Bond investments without active market

- (a) Bond investments without active market are loans and receivables not originated by the entity. They are bond investments with fixed or determinable payments that are not quoted in an active market, and also meet all of the following conditions:
 - i. Not designated on initial recognition as at fair value through profit or loss;
 - ii. Not designated on initial recognition as available-for-sale;
 - iii. Not for which the holder may not recover substantially all of its initial investment, other than because of credit deterioration.
- (b) On a regular way purchase or sale basis, bond investments without active market are recognised and derecognised using settlement date accounting.
- (c) Bond investments without active market are initially recognised at fair value on the trade date plus transaction costs and subsequently measured at amortised cost using the effective interest method, less provision for impairment. Amortisation of a premium or a discount on such assets is recognised in profit or loss.

(11) Impairment of financial assets

- A. The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.
- B. The criteria that the Group uses to determine whether there is objective evidence of an impairment loss is as follows:
 - (a) Significant financial difficulty of the issuer or debtor;
 - (b) A breach of contract, such as a default or delinquency in interest or principal payments;
 - (c) The Group, for economic or legal reasons relating to the borrower's financial difficulty, granted the borrower a concession that a lender would not otherwise consider;
 - (d) It becomes probable that the borrower will enter bankruptcy or other financial reorganisation;
 - (e) The disappearance of an active market for that financial asset because of financial difficulties:
 - (f) Information about significant changes with an adverse effect that have taken place in the technology, market, economic or legal environment in which the issuer operates, and indicates that the cost of the investment in the equity instrument may not be recovered; or
 - (g) A significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.
- C. When the Group assesses that there has been objective evidence of impairment and an impairment loss has occurred, accounting for impairment is made as follows according to the category of financial assets:
 - (a) Financial assets measured at amortised cost
 - The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate, and is recognised in profit or loss. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset does not exceed its amortised cost that would have been at the date of reversal had the impairment loss not been recognised previously. Impairment loss is recognised and reversed by adjusting the carrying amount of the asset through the use of an impairment allowance account.
 - (b) Available-for-sale financial assets
 - The amount of the impairment loss is measured as the difference between the asset's acquisition cost (less any principal repayment and amortisation) and current fair value, less any impairment loss on that financial asset previously recognised in profit or loss, and is reclassified from 'other comprehensive income' to 'profit or loss'. If, in a subsequent period, the fair value of an investment in a debt instrument increases, and the increase can be related objectively to an event occurring after the impairment loss was recognised, then such impairment loss is reversed through profit or loss. Impairment loss of an investment in an equity instrument recognised in profit or loss shall not be reversed through profit or loss. Impairment loss is recognised and reversed by adjusting the carrying amount of the asset through the use of an impairment allowance account.

(12) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

(13) Investments accounted for using equity method / associates

- A. Associates are all entities over which the Group has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognised at cost.
- B. The Group's share of its associates' post-acquisition profits or losses is recognised in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income. When the Group's share of losses in an associate equals or exceeds its interest in the associate, the Group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.
- C. When changes in an associate's equity that are not recognised in profit or loss or other comprehensive income of the associate and such changes not affecting the Group's ownership percentage of the associate, the Group recognises change in ownership interests in the associate in 'capital surplus' in proportion to its ownership.
- D. Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- E. When the Group disposes its investment in an associate, if it loses significant influence over this associate, the amounts previously recognised in other comprehensive income in relation to the associate, are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it still retains significant influence over this associate, then the amounts previously recognised in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.

(14) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalised.
- B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.

D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each balance sheet date. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Buildings $5\sim55$ yearsMachinery and equipment $3\sim10$ yearsResearch and development equipment $3\sim10$ yearsOffice equipment $3\sim5$ yearsOther tangible operating assets $3\sim10$ years

(15) Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of 50 years.

(16) Intangible assets

A.Computer software

Computer software is stated at cost and amortised on a straight-line basis over its estimated useful life of 3 to 10 years.

B.Goodwill

Goodwill arises in a business combination accounted for by applying the acquisition method.

(17) Impairment of non-financial assets

- A. The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.
- B. The recoverable amounts of goodwill, intangible assets with an indefinite useful life and intangible assets that have not yet been available for use shall be evaluated periodically. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. Impairment loss of goodwill previously recognised in profit or loss shall not be reversed in the following years.
- C. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units, or groups of cash-generating units, that is/are expected to benefit from the synergies of the business combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

(18) Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

(19) Notes and accounts payable

Notes and accounts payable are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. They are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method. However, short-term accounts payable without bearing interest are subsequently measured at initial invoice amount as effect of discounting is immaterial.

(20) Provisions

Warranty provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be reliably estimated. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date, which is discounted using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to passage of time is recognised as interest expense. Provisions are not recognised for future operating losses.

(21) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expenses in that period when the employees render service.

B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognised as pension expenses when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

(b)Defined benefit plans

- i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets, together with adjustments for unrecognised past service costs. The defined benefit net obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date) instead.
- ii. Actuarial gains and losses arising on defined benefit plans are recognised in other comprehensive income in the period in which they arise.
- iii.Past service costs are recognised immediately in profit or loss if vested immediately; if not, the past service costs are amortised on a straight-line basis over the vesting period.

C. Employees' bonus and directors' and supervisors' remuneration

Employees' bonus and directors' and supervisors' remuneration are recognised as expenses and liabilities, provided that such recognition is required under legal obligation or constructive obligation and those amounts can be reliably estimated. However, if the accrued amounts for employees' bonus and directors' and supervisors' remuneration are different from the actual distributed amounts as resolved by the stockholders at their stockholders' meeting subsequently, the differences should be recognised based on the accounting for changes in estimates. The Group calculates the number of shares of employees' stock bonus based on the fair value per share at the previous day of the stockholders' meeting held in the year following the financial reporting year, and after taking into account the effects of ex-rights and ex-dividends.

(22) Employee share-based payment

For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognised as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and non-market vesting conditions. Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. And ultimately, the amount of compensation cost recognised is based on the number of equity instruments that eventually vest.

(23) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Group operates and generates taxable income. An additional 10% tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred income tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the unconsolidated balance sheet. However, the deferred income tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.
- D. Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred income tax assets are reassessed.

(24) Revenue recognition

- A. The Group manufactures and sells computer peripheral and component parts products. Revenue is measured at the fair value of the consideration received or receivable taking into account of value-added tax, returns, rebates and discounts for the sale of goods to external customers in the ordinary course of the Group's activities.
- B. The Group offers customers volume discounts and right of return for defective products. The Group estimates such discounts and returns based on historical experience. Allowance accounts for such liabilities are recorded when the sales are recognised.

(25) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions.

5. <u>CRITICAL ACCOUNTING JUDGEMENTS</u>, <u>ESTIMATES AND KEY SOURCES OF ASSUMPTION</u> UNCERTAINTY

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

(1) Critical judgements in applying the Group's accounting policies

Financial assets—impairment of equity investments

The Group follows the guidance of IAS 39 to determine whether a financial asset—equity investment is impaired. This determination requires significant judgement. In making this judgement, the Group evaluates, among other factors, the duration and extent to which the fair value of an equity investment is less than its cost and the financial health of and short-term business outlook for the investee, including factors such as industry and sector performance, changes in technology and operational and financing cash flow.

(2) Critical accounting estimates and assumptions

The accounting assumptions are made based on estimates of future events. Assumptions may differ from the actual results. The information on assumptions and estimates that may have risks of major adjustments to carrying amount of assets and liabilities of the next fiscal year is as follows:

A. Revenue recognition

In principle, sales revenues are recognised when the earning process is completed. The Group estimates discounts and returns based on historical results and other known factors. Provisions for such liabilities are recorded as a deduction item to sales revenues when the sales are recognised. The Group reassesses the reasonableness of estimates of discounts and returns periodically.

B. Impairment assessment of tangible and intangible assets (excluding goodwill)

The Group assesses impairment based on its subjective judgement and determines the separate cash flows of a specific group of assets, useful lives of assets and the future possible income and expenses arising from the assets depending on how assets are utilised and industrial

characteristics. Any changes of economic circumstances or estimates due to the change of Group strategy might cause material impairment on assets in the future.

C. Realisability of deferred income tax assets

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences can be utilised. Assessment of the realisability of deferred income tax assets involves critical accounting judgements and estimates of the management, including the assumptions of expected future sales revenue growth rate and profit rate, tax exempt duration, available tax credits, tax planning, etc. Any variations in global economic environment, industrial environment, and laws and regulations might cause material adjustments to deferred income tax assets

As of 31st December 2014, the Group recognised deferred income tax assets amounting to \$266,817.

D. Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Group must determine the net realisable value of inventories on balance sheet date using judgements and estimates. Due to the rapid technology innovation, the Group evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realisable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

As of 31st December 2014, the carrying amount of inventories was \$8,866,121.

E. Calculation of accrued pension obligations

When calculating the present value of defined pension obligations, the Group must apply judgements and estimates to determine the actuarial assumptions on balance sheet date, including discount rates and expected rate of return on plan assets. Any changes in these assumptions could significantly impact the carrying amount of defined pension obligations.

As of 31st December 2014, the carrying amount of accrued pension obligations was \$383,121.

F. Financial assets—fair value measurement of unlisted stocks without active market

The fair value of unlisted stocks held by the Group that are not traded in an active market is determined considering those companies' recent funding raising activities and technical development status, fair value assessment of other companies of the same type, market conditions and other economic indicators existing on balance sheet date. Any changes in these judgements and estimates will impact the fair value measurement of these unlisted stocks. Please refer to Note 12(3) for the financial instruments fair value information.

6. <u>DETAILS OF SIGNIFICANT ACCOUNTS</u>

(1) Cash and cash equivalents

	<u> 31st L</u>	December 2014	31st December 2013
Cash on hand	\$	719,423	\$ 668,911
Checking accounts and demand deposits		4,729,831	2,987,089
Time deposits		3,887,101	4,490,406
	\$	9,336,355	\$ 8,146,406

A. The Group transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote. The

Group's maximum exposure to credit risk at balance sheet date is the carrying amount of all cash and cash equivalents.

B. Details of the Group's cash and cash equivalents pledged to others as collateral are provided in Note 8.

(2) Financial assets at fair value through profit or loss

	31st D	ecember 2014 31	31st December 2013	
<u>Current items</u>				
Financial assets held for trading				
Open-end funds-Domestic	\$	857,404 \$	960,158	
Open-end funds-Overseas		18,465	315,361	
Listed (OTC) stocks		198,644	198,644	
Corporate bonds		181,933	154,966	
		1,256,446	1,629,129	
Valuation adjustment	(64,852)(110,318)	
	\$	1,191,594 \$	1,518,811	

- A. The Group recognized net gain of \$73,747 and \$19,131 on financial assets held for trading for the years ended 31st December 2014 and 2013, respectively.
- B. The counterparties of the Group's debt instrument investments have credit quality ratings above "investment grade". The maximum exposure to credit risk at balance sheet date is the carrying amount of financial assets-debt instruments at fair value through profit or loss.
- C. Transactions of non-derivatives and contract information are as follows:
 - The Group is involved in presale of forward foreign exchange contracts to hedge exchange rate risk of accounts receivable arising from export transactions. However, these forward foreign exchange contracts are not accounted for under hedge accounting. As of 31st December 2014 and 2013, all the forward foreign exchange contracts have been settled. For the years ended 31st December 2014 and 2013, the Group has recognized loss of \$1,617 and profit of \$943, respectively, on transactions of derivatives.
- D. The Group has no financial assets at fair value through profit or loss pledged to others.

(3) Accounts receivable - net

	<u>31st D</u>	<u> ecember 2014 31st L</u>	<u>December 2013</u>
Accounts receivable- third parties	\$	6,181,588 \$	5,774,199
Less: Allowance for doubtful accounts	(88,300)(339,074)
Accounts receivable- net	<u>\$</u>	6,093,288 \$	5,435,125

A. The Group's credit quality for accounts receivable is assessed in accordance with the customer's credit rating and the collection period for the calculation basis of impairment loss. The Group has an internal credit valuation policy for its customers and the Group's finance department routinely or randomly revaluates whether the credit ratings are still appropriate and makes adjustments when necessary in order to ascertain the latest condition of the customers. The credit rating for customers is based on the scale of the industry operations, profit-generating conditions, and the credit rating given by financial institutions as references for assessment.

- B. The ageing analysis was based on past due date. The Group did not hold any financial assets that were past due but not impaired for the year ended 31st December 2014.
- C. Movement analysis of the allowance for bad debts of financial assets that were impaired is as follows:

	For the year ended 31st December 2014						
	<u>Indivi</u>	Individual provision G		Group provision		Total	
At 1st January	\$	238,556	\$	100,518	\$	339,074

Accumulated impairment	(22,654)(22,654)
	\$	345,828 \$	509,384

The Group recognised (\$38,070) and \$114,905 in other comprehensive income for fair value change for the years ended 31st December 2014 and 2013, respectively.

B. Information on restricted assets pledged as collateral to others is provided in Note 8.

(7) <u>Held-to-maturity financial assets</u>

31st December 2014 31st December 2013

Non-current items

Bank debentures \$ 153,480 \$ 148,410

- A. The counterparties of the Group's debt instrument investments have credit quality ratings above "investment grade". The maximum exposure to credit risk at balance sheet date is the carrying amount of held-to-maturity financial assets.
- B. As of 31st December 2014 and 2013, no held-to-maturity financial assets held by the Group were pledged to others.

(8) Investments in bonds without active markets

31st December 2014 31st December 2013

Non-current items

Corporate bonds <u>\$ - \\$ 19,662</u>

- A. The counterparties of the Group's debt instrument investments have credit quality ratings above "investment grade". The maximum exposure to credit risk at balance sheet date is the carrying amount of bond investments without active market.
- B. As of 31st December 2013, no investments in bonds without active markets held by the Group were pledged to others.

(9) Investments accounted for using equity method

	31st December 2014		31st December 2013	
Giga Win International Venture Investment Group Ltd.	\$	-	\$	97,401
Senyun Precise Optical Co., Ltd		217,249		208,883
Qsan Technology Inc.		81,057		<u> </u>
	\$	298,306	\$	306,284

The financial information of the Group's principal associates is summarized below:

					% interest
	Assets	<u>Liabilities</u>	Revenue	Profit/(Loss)	held
31st December 2014					
Senyun Precise Optical Co., Ltd.	\$ 652,163	\$ 216,511	\$ 436,820	\$ 15,447	49.87%
Qsan Technology, Inc.	245,139	132,045	279,220	2,796	40.31%

(15) Provisions

A. Movement analysis of the provision for warranty is as follows:

	For the years ended 31st December			1st December
		2014		2013
At 1st January	\$	562,578	\$	476,667
Additional provisions		650,652		521,581
Used during the period	(678,174)	(435,670)
At 31st December	<u>\$</u>	535,056	\$	562,578

B. The Group gives warranties on the peripherals and accessories of computer hardware sold. Provision for warranty is estimated based on the historical repair records of the product.

(16) Pensions

- A.(a) The Company and its domestic subsidiaries have a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee.
 - (b) The amounts recognised in the balance sheet are determined as follows:

	31st Dece	<u>ember 2014</u>	31st Dec	<u>ember 2013</u>
Present value of funded defined benefit obligations	(\$	626,700)	(\$	626,517)
Fair value of plan assets		243,579		244,676
Net liability in the balance sheet	(<u>\$</u>	383,121)	<u>(\$</u>	<u>381,841</u>)

(c) Movements in present value of funded defined benefit obligations are as follows:

		2014	2013
Present value of funded defined benefit obligations			
At 1st January	(\$	626,517)(\$	634,668)
Current service cost	(7,768)(7,901)
Interest cost	(12,478)(9,502)
Actuarial profit and loss		8,542	15,608
Benefits paid		10,362	9,946
Effects on curtailment or settlement		1,159	<u>-</u>
At 31st December	<u>(\$</u>	626,700)(\$	626,517)

(d) Movements in fair value of plan assets are as follows:

		2014	2013
Fair value of plan assets			
At 1st January	\$	244,676 \$	241,827
Expected return on plan assets		4,359	4,334
Actuarial profit and loss	(1,347)(1,280)
Employer contributions		3,559	9,741
Benefits paid	(10,362)(9,946)
At 31st December	<u>\$</u>	243,579 \$	244,676

(e) Amounts of expenses recognised in comprehensive income statements are as follows:

	For the years ended 31st December			
		2014	2013	
Current service cost	\$	7,768 \$	7,901	
Interest cost		12,478	9,502	
Expected return on plan assets	(4,359)(4,334)	
Profit arising from curtailment or settlement	(1,159)	<u>-</u>	
Current pension costs	\$	14,728 \$	13,069	

Details of cost and expenses recognised in comprehensive income statements are as follows:

	For the years ended 31st December			
		2014		2013
Operating costs	\$	5,984	\$	6,914
Selling expenses		3,089		2,395
General and administrative expenses		1,662		1,127
Research and development expenses		3,993		2,633
	\$	14,728	\$	13,069

(f) Amounts of actuarial gains or losses recognised under other comprehensive income are as follows:

	For the years ended 31st December			
Recognition for current period	2014		2013	
	<u>(\$</u>	9,889)(\$	14,328)	
Accumulated amount	\$	67,486 \$	77,375	

(g) The Bank of Taiwan was commissioned to manage the Fund of the Company's and domestic subsidiaries' defined benefit pension plan in accordance with the Fund's annual investment and utilisation plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labor Retirement Fund" (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. The constitution of fair value of plan assets as of 31st December 2014 and 2013 is given in the Annual Labor Retirement Fund Utilisation Report published by the government. Expected return on plan assets was a projection of overall return for the obligations period, which was estimated based on historical returns and by reference to the status of Labor Retirement Fund utilisation by the Labor Pension Fund Supervisory Committee and taking into account the effect that the Fund's minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks.

For the years ended December 31, 2014 and 2013, the Company's actual return on plan assets was \$5,706 and \$3,504, respectively.

(h) The principal actuarial assumptions used were as follows:

	For the years ended	31st December
	2014	2013
Discount rate	2.00%	2.00%
Future salary increases	3.00%	3.00%
Expected return on plan assets	1.75%	1.75%

Assumptions regarding future mortality experience are set based on actuarial advice in accordance with published statistics and experience in each territory.

(i) Historical information of experience adjustments was as follows:

	Fo	r the years ended 31	st December
		2014	2013
Present value of defined benefit obligation	(\$	626,700)(\$	626,517)
Fair value of plan assets		243,579	244,676
Deficit in the plan	<u>(\$</u>	383,121)(\$	381,841)
Experience adjustments on plan liabilities	\$	<u>8,445</u> (<u>\$</u>	4,020)
Experience adjustments on plan assets	\$	1,348 (\$	1,280)

- (j) Expected contributions to the defined benefit pension plans of the Group within one year from 31st December 2014 amounts to \$13,769.
- B.(a) Effective July 1, 2005, the Company and its domestic subsidiaries have established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment. The pension costs under the defined contribution pension plans of the Group for the years ended 31st December 2014 and 2013 were \$97,486 and \$84,340, respectively.
 - (b) The Company's mainland subsidiaries have a defined contribution plan. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People's Republic of China (PRC) are based on certain percentage of employees' monthly salaries and wages. The contribution percentage for the years ended 31st December 2014 and 2013 was 12~21% and 12~22%, respectively. Other than the monthly contributions, the Group has no further obligations. For the years ended 31st December 2014 and 2013, the Company's mainland subsidiaries have recognised pension cost of \$74,165 and \$69,906, respectively.

(17) Income tax

A. Income tax expense

Components of income tax expense:

	For the years ended 31st December						
		2014		2013			
Current tax:							
Current tax on profits for the period	\$	470,522	\$	346,855			
Tax on undistributed earnings		25,140		14,638			
Adjustments in respect of prior years		20,434		9,274			
Total current tax		516,096		370,767			
Deferred tax:							
Origination and reversal of temporary differences		15,234	(3,198)			
Effect of the exchange rate		13,211		5,308			
Total deferred tax		28,445		2,110			
Income tax expense	\$	544,541	\$	372,877			

B. Reconciliation between income tax expense and accounting profit

	<u>I</u>	31st December			
		2014	2013		
Tax calculated based on profit before tax and statutory tax rate	\$	500,539 \$	464,501		
Expenses disallowed by tax regulation		27,843	32,645		
Tax exempted income by tax regulation	(39,600) (135,301)		
Effect from tax credit of investment	(48,579) (37,466)		
Tax on undistributed earnings		25,140	14,638		
Prior year income tax underestimation		20,434	9,274		
Changes in assessment of realization of deferred tax assets	(1,873) (25,096)		
Effect of tax from different applicable taxes within the Group		56,891	49,682		
Income tax expense	\$	544,541 \$	372,877		

C. Amounts of deferred tax assets or liabilities as a result of temporary difference and investment tax credit are as follows:

	For the year ended 31st December 2014								
		1st January]	Recognised in profit or loss	Recognised in other comprehensive income	_31st	December

Creditable tax ratio of the total distributed							
retained earnings		12.27%		14.43%			

(18) Share capital

A.As of 31st December 2014, the Company's authorized capital was \$9,500,000, consisting of 950,000 thousand shares of ordinary stock (including 250,000 thousand shares reserved for employee stock options and for convertible bonds issued by the Company), and the paid-in capital was \$6,288,829 with a par value of \$10 per share. All proceeds from shares issued have been collected:

Movements in the number of the Company's ordinary shares outstanding are as follows:

	2014	2013
At 1st January	626,571,386	625,891,386
Employee stock options exercised	2,311,500	680,000
At 31st December	628,882,886	626,571,386

- B.The Group issued 7.5 million units (entitled to 30 million ordinary shares of the Company) of Global Deposit Receipts (GDRs) as of 17th July 2000, with the issue price was US \$16.76 per unit; as of 31st December 2012, the Group had only 7,509 units outstanding, in order to lower the related managing expenses, the Group terminated the abovementioned GDRs in January 2013, and the depositing and custodian institution completed the transactions for cancellation and allotment of the purchase price in August of the same year.
- C.The number of shares of common stock issued for the year ended 31st December 2014 due to the exercise of employee stock options is 2,311,500 shares.

(19) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Law requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(20) Retained earnings

- A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior year's operating losses and then 10% of the remaining amount shall be set aside as legal reserve, unless accumulated legal reserve has reached an amount equal to the Company's paid-in capital. And then special reserve shall be set aside or reversed according to the laws or decrees or the regulations of competent authorities. Appropriation (5% ~ 80%) of the remainder plus prior year's accumulated retained earnings shall be proposed by the Board of Directors and resolved by the stockholders as follows:
 - (1) 6% to 10% as bonuses to employees;
 - (2) Not more than 3% as remuneration to directors and supervisors; and
 - (3) Not less than 87% as dividends to stockholders, of which, not less than 5% shall be distributed in the form of cash. If the cash dividend is less than ten cents (NT\$0.1) per share, such dividend shall be distributed in the form of shares.
- B. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the balance of the reserve exceeds 25% of the Company's paid-in capital.

- C. (a) In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
 - (b) The amounts previously set aside by the Company as special reserve on initial application of IFRSs in accordance with Jin-Guan-Zheng-Fa-Zi Letter No. 1010012865, dated 6th April 2012, shall be reversed proportionately when the relevant assets are used, disposed of or reclassified subsequently.
- D. The estimated amount of employees' bonus of 2014 and 2013 was \$187,971 and \$176,667, respectively; and the estimated amounts of directors' and supervisors' remuneration of 2014 and 2013 was \$56,391 and \$53,000, respectively, as prescribed by the Group's Articles of Incorporation, of the Company's 2014 and 2013 net income after taking into account the legal reserve and other factors.
 - The amounts of employees' cash bonus and directors' and supervisors' remuneration of 2013 as resolved by stockholders are different from the amounts recognised in the 2013 financial statements (employees' cash bonus of \$176,667 and directors' and supervisors' remuneration of \$53,000). The difference of \$51,323 has been adjusted in the profit or loss for 2014. Information about the appropriation of the Company's employees' bonus and directors' and supervisors' remuneration as proposed by the Board of Directors and resolved by the stockholders will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.
- E. The appropriation of 2013 earnings had been proposed by the Board of Directors on 11th June 2014 and the appropriation of 2012 earnings had been resolved at the stockholders' meeting on 14th June 2013. Details are summarized below:

		2013			2012			
			vidends		Di	vidends		
			per share			pe	per share	
	_	Amount	(in dollars)		Amount	(in	<u>dollars)</u>	
Legal reserve	\$	235,554			\$ 155,257			
Cash dividends		1,880,469	\$	3.00	1,252,453	\$	2.00	
Directors' and supervisors' remuneration		64,844			43,188			
Employees' cash bonus		216,146			143,960			

(21) Share-based payment

A.As of 31st December 2014, the Company's share-based payment transactions are set forth below:

Type of arrangement	Grant date	Quantity granted	Contract period	Vesting conitions
Employee stock options	2007.12.19	40,000,000 shares	10 years	2~4 years' service vested immediately

B. Details of the employee stock options are set forth below:

	For the years ended 31st December							
		2014	2013					
		Weighted-average	e	Weighted-average				
	No. of shares	exercise price	No. of shares	exercise price				
Stock options	(in thousands)	(in dollars)	(in thousands)	(in dollars)				
Options outstanding at beginning of year	12,531	\$ 12.70	13,211	\$ 13.68				
Options exercised	(2,312)	11.99	(680)	13.22				
Options outstanding at end of year	10,219	11.90	12,531	12.70				
Options exercisable at end of year	10,219		12,531					

- C. The weighted-average stock price of stock options at exercise date of 2014 and 2013 was \$33.24~\$49.54 and \$25.99~\$37.48 (in dollars), respectively.
- D. As of 31st December 2014 and 2013, the range of exercise price of stock options outstanding was \$11.90 and \$12.70 respectively, and the weighted-average remaining vesting period was 2.97 years and 3.97 years, respectively.
- E. For the stock options granted by the Company with the compensation cost accounted for using the fair value method, their fair value on the grant date is estimated using the Black-Scholes option-pricing model. The weighted-average parameters used in the estimation of the fair value are as follows:

Type of		Stock	Exercise	Price			Interest	Fair value
arrangement	Grant date	price	price	volatility	Option life	Dividends	rate	per unit
Employee stock options	2007.12.19	\$ 19	\$ 19	39.16%	6.35 years	-	2.58%	\$ 8.1648

	Amo	unt after tax	Weighted average number of ordinary shares outstanding (share in thousands)	Earnings per share (in dollars)		
Basic earnings per share						
Profit attributable to ordinary shareholders of the parent	\$	2,355,536	626,259	<u>\$ 3.76</u>		
Diluted earnings per share						
Assumed conversion of all dilutive potential ordinary shares						
—Employees' bonus		-	4,401			
—Convertible bonds		-	7,205			
Profit attributable to ordinary shareholders of the parent plus assumed conversion of all dilutive potential ordinary shares	<u>\$</u>	2,355,536	637,865	\$ 3.69		

As employees' bonus could be distributed in the form of stock, the diluted EPS computation shall include those estimated shares that would be increased from employees' stock bonus issuance in the weighted-average number of common shares outstanding during the reporting year, which take into account the dilutive effects of stock bonus on potential common shares; whereas, basic EPS shall be calculated based on the weighted-average number of common shares outstanding during the reporting year that include the shares of employees' stock bonus for the appropriation of prior year earnings, which have already been resolved at the stockholders' meeting held in the reporting year.

Pledged asset	31st Decemb	er 2014 31st Decemb	er 2013	Purpose
Pledged asset (accounted for as "Other current assets" and "Other non-current assets") -				Guarantee for the customs duties and deposits
Pledged deposits	\$	67,623 \$	68,802	

9. <u>SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNISED CONTRACT</u> COMMITMENTS

None.

10. SIGNIFICANT DISASTER LOSS

None.

11. <u>SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE</u>

None.

12. OTHERS

(1) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, issue employee stock option or buyback and retire treasury stock.

(2) Financial instruments

A. Fair value information of financial instruments

Except for those listed in the table below, the carrying amounts of the Group's financial instruments not measured at fair value (including cash and cash equivalents, notes receivable, accounts receivable, other receivables, refundable deposits, short-term borrowings, notes payable, accounts payable, other payables and deposits received) are approximate to their fair values. The fair value information of financial instruments measured at fair value is provided in Note 12(3).

	31st December 2014					
		Book value		Fair value		
Financial assets:

Other financial assets		4,704,631		4,699,580		
Total	<u>\$</u>	4,872,703	\$	4,866,236		

B. Financial risk management policies

(a) The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial position and financial performance. The Group uses derivative financial instruments to hedge certain risk exposures (see Note 6(2)).

- (b) Risk management is carried out by a central treasury department (Group treasury) under policies approved by the Board of Directors. Group treasury identifies, evaluates and hedges financial risks in close co-operation with the Group's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.
- C. Significant financial risks and degrees of financial risks
 - (a) Market risk

Foreign exchange risk

- a. The Group operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the USD. Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations.
- b. The Group's businesses involve some non-functional currency operations (the Company's and certain subsidiaries' functional currency: NTD; other certain subsidiaries' functional currency: RMB). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

					31st D	ecember 2014	1			
					_		S	Sensitivity ar	alysi	S
	C	Foreign currency amount <u>Thousands</u>)	Exchange rate	E	Book value (NTD)	Degree of variation	Effe	ect on profit or loss	com	ect on other prehensive income

USD:NTD	\$	216,769	29.95	\$	6,492,232	1%	\$	64,922	\$	-

Price risk

- a. The Group is exposed to equity securities price risk because of investments held by the Group and classified on the consolidated balance sheet either as available-for-sale or at fair value through profit or loss. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.
- b. The Group's investments in equity securities comprise domestic listed and unlisted stocks. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, post-tax profit for the years ended 31th December 2014 and 2013 would have increased/decreased by \$10,087 and \$13,672, respectively, as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other components of equity would have increased/decreased by \$4,336 and \$5,930, respectively, as a result of gains/losses on equity securities classified as available-for-sale.

Interest rate risk

- a. The domestic bond fund investment by the Group was held mainly for trading purposes, the effective interest rate of this fund is affected by the market interest rate.
- b. The structured notes and investment floating bonds of the Group were range accrual notes, the effective interest rate of these notes are affected by the market interest rate; accordingly, the Group's future cash flows would fluctuate with the market interest rate change.
- c. For fixed interest rate bond investments held by the Group classified as financial assets at fair value through profit or loss, changes in market interest rates would affect their fair values. At 31st December 2014 and 2013, if market interest rates had been 1% higher/lower with all other variables held constant, other comprehensive income for the years ended 31st December 2014 and 2013 would have been \$1,829 and \$1,516 lower/higher, respectively.
- d. At 31st December 2014 and 2013, if interest rates on borrowings had been 0.1% higher/lower with all other variables held constant, profit for the years ended 31st December 2014 and 2013 would have been \$0 and \$1,201 lower/higher, respectively, mainly as a result of higher/lower interest expense on floating rate borrowings.

(b) Credit risk

a. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.

- b. The bond fund held by the Group was issued by well-known foreign banks and securities investment trust companies owned by or affiliated with domestic financial holding companies with good credit standing. Since the Group trades with several securities investment trust companies, credit risk is low.
- c. The Group has lower significant concentrations of credit risk, due to investment in corporate bonds or financial bonds. The maximum loss to the Group is the total amount of all book value.
- d. The structured notes investment of the Group were issued by well-known banks or asset management companies, and accordingly, the credit risk of the counterparties is minimal.
- e. The Group has lower significant concentrations of credit risk. It has policies in place to ensure that wholesale sales of products are made to customers with an appropriate credit history. The Group had credit insurance coverage for a majority of its customers. Accordingly, credit risk is low. No credit limits were exceeded during the reporting periods, and management does not expect any significant losses from non-performance by these counterparties.
- f. Derivative counterparties and cash transactions are limited to high-credit-quality international financial institutions. The Group has policies that limit the amount of credit exposure to any financial institution.
- g. Loan guarantees provided by the Group are in compliance with the Group's "Procedures for Provision of Endorsements and Guarantees" and are only provided to affiliated companies of which the Group owns directly or indirectly more than 50% ownership or a company which trades with the Group. As the Company is fully aware of the credit conditions of these related parties, it has not asked for collateral for the loan guarantees provided. In the event that these related parties fail to comply with loan agreements with banks, the maximum loss to the Group is the total amount of loan guarantees as listed above.
- h. The credit quality information of financial assets that are neither past due nor impaired is provided in the statement for each type of financial assets in Note 6.
- i. The individual analysis of financial assets that had been impaired is provided in the statement for each type of financial assets in Note 6.

(c) Liquidity risk

- a. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times.
- b. Potential liquidity risk of structured time deposits held by the Group lies in that those assets have no sale-back option before expiry of the contract; however, the Group may terminate the contract early before expiry, yet it shall compensate its counterparty with default penalty and handling fees for early termination of the contract or compensate for counterparty's hedging loss and related expenses incurred.
- c. The table below analyses the Group's non-derivative financial liabilities and net-settled or gross-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows:

Non-derivative financial liabilities:

		Between 1 and		
31st December 2014	Less than 1 year	2 years	Over 2 years	 Total
Short-term borrowings	\$ 71,326	\$ -	\$ -	\$ 71,326
Notes payable	50,204	-	-	50,204
Accounts payable	5,487,917	-	-	5,487,917
Other payables	3,376,700	-	-	3,376,700

Non-derivative financial liabilities:

			Bet	tween 1 and			
31st December 2013	Les	Less than 1 year		2 years	Over 2 years	_	Total
Short-term borrowings	\$	2,605,649	\$	-	\$ -	\$	2,605,649
Notes payable		37,511		-	-		37,511
Accounts payable		5,423,326		-	-		5,423,326
Other payables		2,884,329		-	-		2,884,329

d. The Group does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

(3) Fair value estimation

A. The table below analyses financial instruments measured at fair value, by valuation method. The different levels have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data.

The following table presents the Group's financial assets that are measured at fair value at 31st December 2014 and 2013:

31st December 2014	 Level 1	Level 2		Level 3	Total
Financial assets:					
Financial assets at fair value through profit or loss					
Equity securities	\$ 1,008,663	\$	- \$	- \$	1,008,663
Debt securities	182,931		-	-	182,931
Available-for-sale financial					
assets	 366,745			66,846	433,591
Total	\$ 1,558,339	\$	<u>-</u> §	66,846 \$	1,625,185

31st December 2013	 Level 1	 Level 2		Level 3	 Total
Financial assets:					
Financial assets at fair value through profit or loss					
Equity securities	\$ 1,367,163	\$	- \$	-	\$ 1,367,163
Debt securities	151,648		-	-	151,648
Available-for-sale financial					
assets	 390,623			202,371	 592,994
Total	\$ 1,909,434	\$	<u>- \$</u>	202,371	\$ 2,111,805

- B. The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Group is the closing price. These instruments are included in level 1. Instruments included in level 1 comprise primarily equity instruments and debt instruments classified as financial assets/financial liabilities at fair value through profit or loss or available-for-sale financial assets.
- C. The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.
- D. If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.
- E. Specific valuation techniques used to value financial instruments include:
 - (a) Quoted market prices or dealer quotes for similar instruments.
 - (b) The fair value of forward foreign exchange contracts is determined using forward exchange rates at the balance sheet date, with the resulting value discounted back to present value.
 - (c)Other techniques, such as discounted cash flow analysis, are used to determine fair value for the remaining financial instruments.
- F. The following table presents the changes in level 3 instruments as at 31st December 2014 and 2013:

	For the years ended 31st December							
		2014	2013					
At 1st January	\$	202,371 \$	180,843					
Gains and losses recognised in profit or loss		- (1,425)					
Gains and losses recognised in other comprehensive income	(51,525)	67,953					
Capital deducted by returning cash	(84,000) (45,000)					
At 31st December	\$	66,846 \$	202,371					

13. SUPPLEMENTARY DISCLOSURES

(1) Significant transactions information

A. Loans to others:

					Maximum

3		Ltd.		165,828	2,558	2,558	-	-	0.31	248,742	N	N	Y	

Note: The Company and the subsidiaries' new ceiling of total outstanding guarantees is 30% of the Company's net value. The ceiling for single party (except the Company's 100% owned subsidiary) is 20% of net value, and should not exceed 50% of the Company's capital. However, the ceiling of the Company's 100% owned subsidiary is 20% of the Company's net value, but shall not exceed 300% of subsidiary's capital.

14. SEGMENT INFORMATION

(1) General information

The Group management has determined the operating segments based on the reports reviewed by the Board of Directors that are used to make strategic decisions. The Group's operating segments are segregated into the global brand business group and other business group based on the revenues from all sources.

Global brand business group: in charge of the development and sale of main boards, interface cards, notebooks and computer peripherals.

Other business group: in charge of the development and sale of network & communication products and cell phones.

The Group's company organization, basis of department segmentation and principles for measuring segment information for the period were not significantly changed.

(2) Measurement of segment information

The Board of Directors assesses the performance of the operating segments based on the operating income (loss).

(3) <u>Information about segment profit or loss, assets and liabilities</u>

The segment information provided to the chief operating decision-maker for the reportable segments is as follows:

2014

	Global brand business group	Other business group	Total
Total segment revenue	\$ 47,703,200	\$ 6,838,487	\$ 54,541,687
Operating income (loss)	\$ 2,846,906	(<u>\$ 1,041,370</u>)	<u>\$ 1,805,536</u>
Depreciation and amortization	<u>\$ 61,833</u>	<u>\$ 454,405</u>	<u>\$ 516,238</u>
Total assets (Note)	<u>\$</u>	\$ -	<u>\$</u>
Total liabilities (Note)	\$ -	<u>\$</u>	<u>\$</u>
2013			
	Global brand	Other business	
	business group	group	Total
Total segment revenue	\$ 44,978,977	<u>\$ 6,140,017</u>	<u>\$ 51,118,994</u>
Operating income (loss)	<u>\$ 2,672,022</u>	(<u>\$ 867,853</u>)	<u>\$ 1,804,169</u>
Depreciation and amortization	\$ 69,855	<u>\$ 485,848</u>	<u>\$ 555,703</u>
Total assets (Note)	<u>\$</u>	<u>\$</u>	<u>\$</u>
Total liabilities (Note)	\$ -	\$ -	\$ -

Note: As the Group's assets and liabilities are not the measurement items used by the chief operating decision-maker in evaluating segments, the measurement amount of the assets and liabilities that shall be disclosed is zero.

(4) Reconciliation for segment income (loss)

The revenue from external parties and segment profit (loss) reported to the chief operating decision-maker are measured in a manner consistent with those in the statement of comprehensive income. Therefore, such reconciliation is not required.

(5) <u>Information on products and services</u>

The revenue from external parties was derived primarily from the development and sale of main boards, interface cards, notebooks, computer peripherals, network & communication products and cell phones.

(6) Geographical information

1) Revenue by geographic area:

	For the years ended 31st December							
		2014		2013				
China	\$	15,825,331	\$	13,904,862				
Europe		15,779,293		13,179,842				
Taiwan		2,919,047		3,234,969				
Others		20,018,016		20,799,321				
Total	\$	54,541,687	\$	51,118,994				

2) Non-current assets:

	For the years ended 31st December				
		2014		2013	
Taiwan	\$	2,907,080	\$	2,473,722	
China		1,978,366		1,996,936	
Others		209,143		199,617	
Total	\$	5,094,589	\$	4,670,275	

(7) Major customer information

There was no customer accounting for more than 10% of the Group's operating revenue for the years ended 31st December 2014 and 2013.
